

March 30, 1977

LB 77

language of a detached facility. I have no motive in trying to kill the bill. I certainly would offer that motion if I felt so but I think there are some problems that are not being exactly addressed in this bill. I was not here. I understand that the introducer may not object to this and if he would not object to this, I'd ask you to adopt that motion.

SPEAKER LUEDTKE: Senator Schmit.

SENATOR SCHMIT: Senator Mills, of course I'm anxious to have the bill read but I'm also anxious that there not be any possible problem with the bill. If you have some suggestions or proposed amendment in regard to the clarification of what is a detached facility, do you have any idea when you might have that amendment ready for us? Is it ready this morning?

SENATOR MILLS: No it is not. I have a researcher doing some work on it. I have some calls in to several other states. I'll try to work with you, Senator Schmit, to expedite that, to not unduly hold the bill.

SENATOR SCHMIT: Could we bracket it for a date certain?

SENATOR MILLS: Would you name the date and I'll be happy to.

SENATOR SCHMIT: How about Monday or Tuesday?

SENATOR MILLS: How about Tuesday?

SENATOR SCHMIT: I'll take...I'm not sure of my own calendar. I'm going to be gone sometime next week. Just a moment. Tuesday will be alright.

SENATOR MILLS: Mr. President, I would amend the motion by inserting whatever date next Tuesday is.

SPEAKER LUEDTKE: Senator Frank Lewis, Chair recognizes you.

SENATOR F. LEWIS: Mr. President, just so I can do a little homework here. I'd like to ask some specific questions of Senator Mills.

SPEAKER LUEDTKE: Senator Mills, would you respond?

SENATOR F. LEWIS: Senator Mills, could you tell me specifically what sections of the bill there are questions on so that we might be looking at those?

SENATOR MILLS: Senator Lewis, when Senator Swigart and several others during both the committee hearings and discussion on the floor of the Legislature, and by the way I'll be happy to bring those to you, discussed a certain area of the clarification because a particular bank or particular banks in the state of Nebraska were detached or attached facilities because of the way that the buildings are constructed. They seem to think, for example, First National Bank of Omaha where that is a detached facility but yet it goes through the Hilton Hotel, clear through another area but yet is attached. There was some lack of definition. The same situation could exist here in Lincoln.

SENATOR F. LEWIS: Who's working on that?
